

Lchship Tech Logistics

One-Stop Intelligent Fulfillment Solutions for Cross-Border E-Commerce

Consolidation · International Line-haul · Overseas Warehousing · Customs
Clearance

Lchship Tech Logistics, headquartered in Shenzhen, specializes in one-stop intelligent fulfillment for cross-border e-commerce brands. Built on four core capabilities — warehousing, line-haul, overseas fulfillment, and customs compliance — we operate a global fulfillment network across major trade destinations. With proprietary OMS / WMS / TMS systems, Lchship brings end-to-end order, inventory, shipping and customs data online for smarter, more controllable and efficient global expansion.

Four Pain Points in Cross-Border Fulfillment

- Inventory out of sync across warehouses, causing over-sell and overstock
- Unstable line-haul transit times, with peak-season congestion and lost shipments
- Complex destination customs compliance, risking holds and demurrage
- High last-mile cost and difficult returns / reverse logistics

我们的解决方案

Built on the four core capabilities of warehousing, line-haul, overseas fulfillment and customs compliance, and powered by proprietary OMS / WMS / TMS systems, Lchship delivers end-to-end, visible and controllable fulfillment for cross-border e-commerce — making global expansion smarter and more efficient.

Four Core Capabilities • End-to-End Smart Fulfillment

From domestic consolidation to overseas fulfillment, from line-haul to customs compliance, Lchship provides end-to-end cross-border logistics solutions.
